

# High-chance portions — econ-schemes

Combined original study articles for this topic's highest-probability PYQ themes.

## External Sector: BoP, Currency & Trade

~40% · Balance of payments · Exchange rate · Trade

Current/capital accounts, forex reserves, rupee and trade policy basics.

Why UPSC asks this

External vulnerability themes + CA linking (oil, FPI) appear steadily.

BoP structure

Trade balance, invisibles, remittances; capital flows (FDI/FPI/ECB). Forex reserves roles.

Trade & policy

WTO basics, FTAs at headline, export competitiveness — link to schemes/PLI when CA-relevant.

Must remember

- Current account vs capital account
- CAD financing via capital inflows
- NEER/REER awareness

# Agriculture, Industry & Flagship Schemes

~38% · Agriculture markets · Industrial policy · Schemes

MSP/markets, industrial policy tools and how to read government schemes for Prelims.

Why UPSC asks this

Static concepts + scheme objectives/ministries matching.

Agriculture economy

Marketing constraints, price policy, irrigation/credit themes, food security–PDS link.

Industry & schemes

PLI-style incentive logic, MSME definitions awareness, infrastructure financing themes. For schemes: objective–ministry–year launched triad.

Must remember

- MSP & procurement logic; e-NAM idea
- Differentiate central sector vs centrally sponsored at high level
- Always verify ministry + objective + beneficiary
