

High-chance portions — sci-space-defence

Combined original study articles for this topic's highest-probability PYQ themes.

ISRO Missions, Space & Defence Tech

~42% · [ISRO missions](#) · [Launch vehicles](#) · [Missiles](#) · [Nuclear](#)

Launch vehicles, planetary missions, missiles and nuclear vocabulary for Prelims.

Why UPSC asks this

India's space/defence profile creates recurring CA–static hybrids.

Space

Track mission objectives (orbiter/lander/rover; solar observation). Satnav and EO applications for governance.

Defence & nuclear

Missile families at name–role level; nuclear doctrine NFU awareness; export control regimes names.

Must remember

- PSLV vs GSLV roles (general)
- Chandrayaan/Mangalyaan/Aditya-type mission goals at headline
- Ballistic vs cruise missile idea; nuclear triad concept outline
