

High-chance portions - gs3-tech-env

Combined original study articles for this topic's highest-probability PYQ themes.

S&T Applications and Environment (GS3)

~40% · S&T applications · Environment mains

Why UPSC asks this

Rising tech + environment analytical demand.

S&T

Space, biotech, IT, dual-use ethics.

Environment

Climate, biodiversity, pollution - policy instruments.

Must remember

- Application -> society/economy/security impact
- Conservation vs development balance

Educational prioritisation heuristic - not an official UPSC prediction. (c) UPSC IAS Study Hub original notes.
