

# CSAT Comprehension Strategy

Accuracy-first reading approach for the largest CSAT block.

Portion focus ~50% · Topic: csat-reading

PYQ themes: RC accuracy · Inference vs fact

## Why UPSC asks this

Comprehension drives qualifying margin every year.

## Method

Preview question stems; read actively for structure; mark line references mentally; distrust outside knowledge.

## Traps

Half-right options; scope shifts; absolute words. Practice timed sets weekly.

## Must remember

- Answer only from passage
- Eliminate extreme options
- 33% qualifying - attempt smart

Educational prioritisation heuristic - not an official UPSC prediction. (c) UPSC IAS Study Hub original notes.
