

Agriculture, Industry & Flagship Schemes

MSP/markets, industrial policy tools and how to read government schemes for Prelims.

Portion focus ~38% · Topic: econ-schemes

PYQ themes: Agriculture markets · Industrial policy · Schemes

Why UPSC asks this

Static concepts + scheme objectives/ministries matching.

Agriculture economy

Marketing constraints, price policy, irrigation/credit themes, food security–PDS link.

Industry & schemes

PLI-style incentive logic, MSME definitions awareness, infrastructure financing themes. For schemes: objective–ministry–year launched triad.

Must remember

- MSP & procurement logic; e-NAM idea
- Differentiate central sector vs centrally sponsored at high level
- Always verify ministry + objective + beneficiary

Educational prioritisation heuristic — not an official UPSC prediction. © UPSC IAS Study Hub original notes.
