

High-chance portions — env-pollution

Combined original study articles for this topic's highest-probability PYQ themes (deep edition).

Pollution, Waste & Wetlands

~34% · [Air pollution](#) · [Wetlands/Ramsar](#) · [Waste management](#)

Why UPSC asks this

Supporting environment block with map + standards questions.

Pollution

Sources, inversion episodes, river pollution (BOD/DO concepts), Namami-type programme awareness without scheme spam.

Wetlands & waste

Wetland ecological services; Ramsar; waste hierarchy reduce–reuse–recycle; extended producer responsibility idea.

Must remember

- PM2.5/PM10; NAAQS awareness
- Ramsar criteria idea; Indian Ramsar sites grow — revise list updates
- E-waste/plastic/biomedical rules exist as regulatory themes

Educational prioritisation heuristic — not an official UPSC prediction. © UPSC IAS Study Hub original notes.
