

High-chance portions - gs4-cases-app

Combined original study articles for this topic's highest-probability PYQ themes.

GS4 Case Studies Method

~50% · Case studies · Decision frameworks

Why UPSC asks this

Case studies dominate paper marks.

Framework

Use a repeatable template under time pressure. Quantify impacts briefly.

Practice

Write 2 cases/week; compare model outlines; build personal example bank.

Must remember

- Stakeholders -> issues -> options -> evaluation (ethics+law+feasibility) -> decision -> justification
- Avoid illegal options

Educational prioritisation heuristic - not an official UPSC prediction. (c) UPSC IAS Study Hub original notes.
