

High-chance portions - sci-bio-it

Combined original study articles for this topic's highest-probability PYQ themes.

Biotech, Health & Emerging Tech

~34% · [Biotech applications](#) · [Health](#) · [AI/IT](#)

Why UPSC asks this

Application-oriented S&T rather than deep lab detail.

Bio & health

Diagnostics, vaccines, GM crops debates, disease ecology. Focus on principles asked in Prelims.

Digital

AI/ML one-liners, cybersecurity hygiene, India Stack awareness as digital public infrastructure theme.

Must remember

- mRNA vs viral vector vaccine ideas at popular-science level
- Antibiotic resistance
- AI: benefits + ethics/privacy

Educational prioritisation heuristic - not an official UPSC prediction. (c) UPSC IAS Study Hub original notes.
